In her experience complementary therapies, when used in conjunction with proven breastfeeding management, do no harm and usually help mother and baby. Therapies covered include: -Creating a healing environment -Skin-to-skin and massage -Acupuncture -Chiropractic -Craniosacral therapy -Remedial co-bathing -Homeopathy This book is not an instruction manual. It is an open door to the world of other ways of healing. Some or all of these therapies may be gentle and helpful additions to your lactation toolbox.
