The Sri Lankan Advanced Level (A-level), is a General Certificate of Education (GCE) qualification exam in Sri Lanka, similar to the British Advanced Level, conducted annually by the Department of Examinations of the Ministry of Education. It is usually taken by students during the optional final two years of collegiate level (grade 12 and 13 or external (non-school) candidates), after they ...

The book looks into the South Asian experience of English language education in the first decade of the 21st century by examining its policies, practices and perspectives in Sri Lanka. It discusses the

evolution of English from the language of administration of the former South Asian colony up to its present and intended, although poorly implemented, status as a “link-language” in Sri Lanka. The official removal of English as the language of administration after independence, the twists and turns of its practice in various domains over six decades, and the views of today’s students and teachers reveal that there is more to English language education in a post-colonial context than current theories address. This book concentrates on what educationalists in English Language Teaching do, the goals that curriculum designers must capture, and how post-colonial attitudes towards English hinder the teaching of English as a second language. This book emphasizes that the general principles of teaching English as a second language need specific modifications at the delivery stage in South Asian societies.

This volume offers comprehensive 'state-of-the-art' overviews of educational policies concerning the teaching of English in a large number of Asian countries. Each contribution is written by a leading expert and gives a clear assessment of current policies and future trends. Starting with a description of the English education policies in the respective countries, the contributors then delve into the 'nuts and bolts' of the English education policies and how they play out in practice in the education system, in schools, in the curriculum, and in teaching. Topics covered include the balance between the acquisition of English and the national language, political, cultural, economic and technical factors that strengthen or weaken the learning of English.

This book offers both a scholarly and practical overview of an integrated language and literature approach in the 16-19 English classroom. Providing a comprehensive overview of the identity of the subject, it outlines the pedagogical benefits of studying a unified English at post-16 and provides case studies of innovative classroom practice across a range of topics and text types. Including contributions from practising teachers and higher education practitioners with extensive experience of the post-16 classroom and drawing on a range of literature, this book covers the teaching of topics such as: Mind style in contemporary fiction Comparative poetry analysis Insights from linguistic cohesion Criticality through creative response Written to complement the two other Teaching English 16–19 titles in the NATE series, Teaching English Language and Literature 16–19 is the ideal companion for all practising A-level English teachers, of all levels of experience.

The only endorsed resources for the Cambridge International AS Level English General Paper syllabus. Through exploration of a wide array of topics, from celebrity culture to poetry in the modern world, this book focuses on strengthening communication, evaluation, analysis, application and understanding skills. Helping students improve their written responses, use of English and comprehension, this coursebook looks at discussion points relevant to the globally-minded classroom. With frequent practice questions and sample answers, students have plenty of opportunities to build their confidence answering questions. Answers to coursebook questions are in the teacher's resource.

'This volume addresses a very timely and important topic, and provides both broad and in-depth coverage of a number of large-scale English tests in China, including Hong Kong and Taiwan, and about the Chinese learner.' – Lyle F. Bachman, From the Foreword Building on current theoretical and practical frameworks for English language assessment and testing, this book presents a comprehensive, up-to-date, relevant picture of English language assessment for students in China (Mainland China, Hong Kong and Taiwan) and for Chinese learners of English around the world. Written by well-recognized international scholars in language testing, it covers: the history of tests and testing systems, issues and challenges, and current research in China both test-designers' and test-users' points of view on test development and test validation within a range of political, economical, social, and financial contexts in China theoretical/conceptual perspectives on the use of the English language assessment at different levels, including societal, university, and schools empirical research related specifically to test development, curricular innovation, and test validation Given the long history of objective testing and its extensive use in Chinese society, and considering the sheer number of students taking various tests in English in China and elsewhere, an understanding of the impact of English language testing is essential for anyone involved in testing and assessment issues in China and elsewhere in the world. This is a must-read volume for testing and assessment policy makers, curriculum designers, researchers, ESL/EFL materials writers, graduate students, and English language teachers/researchers at all levels.
