Basic Geriatric Nursing - E-Book - Edition 6 by Patricia A

The bestselling LPN/LVN geriatric nursing textbook, Basic Geriatric Nursing, 5th Edition covers age-appropriate nursing interventions in a variety of health care settings.

The bestselling LPN/LVN geriatric nursing textbook, Basic Geriatric Nursing, 5th Edition covers age-appropriate nursing interventions in a variety of health care settings. It includes the theories and concepts of aging, covers expected physiologic and psychosocial changes, and highlights delegation, coordinated care, end-of-life care, patient teaching, quality of life, safety, and home care. This edition is updated with the latest issues and trends in geriatric nursing, including changes to the health care system and demographics. Part of the popular LPN Threads series, Gloria Hoffman Wold's text provides a clear and compassionate introduction to geriatric care. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic communication, cultural considerations, spiritual influences, evidence-based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. UNIQUE! Delegation, leadership, and management content is integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with scenario-based clinical activities and practice questions. UNIQUE! Nursing interventions are numbered and grouped according to health care setting (e.g., acute care, extended care, home care), in a patient-centered approach emphasizing the unique needs of the older adult. UNIQUE! Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. UNIQUE! Critical Thinking boxes help you to assimilate and synthesize information. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Cultural Considerations boxes encourage culturally sensitive care of older adults. UNIQUE! Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. UNIQUE! LPN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design.

Describes the theories and concept of aging along with information on the physiological and psychosocial changes and problems of the aging process, and covers the appropriate nursing interventions.

Prepare for a successful career in caring for geriatric populations! Williams' Basic Geriatric Nursing, 7th edition is an easy-to-read text which presents the theories and concepts of aging along with appropriate nursing interventions. This comprehensive book helps you understand the unique physiologic and psychosocial changes that affect the elderly adult. Threaded throughout this new edition are practical QSEN boxes and Nurse Alert features, which highlight safety, cultural considerations, health promotion, coordinated care, and home care specific to elderly patients. In addition, an online Study Guide, NCLEX®-PN review questions, and real-world clinical situation boxes help you to study for exams and apply concepts to practice. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. UNIQUE! A FREE Study Guide, presented in a comprehensive PDF format on Evolve, reinforces your understanding. 10th grade reading level makes learning easier for you. Nursing Care Plans include Critical Thinking boxes to help you to assimilate and synthesize information. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Cultural Considerations throughout text cover biocultural variations as well as health promotion for specific ethnic groups so you can provide culturally competent care. Health Promotion and Patient Teaching boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. NEW! QSEN boxes provide you with the knowledge, skills, and attitudes necessary to continuously improve the quality and safety of care of the older adult. NEW! UNIQUE! Get Ready for the NCLEX® Examination! section at the end of each chapter includes key points along with new Review Questions for the NCLEX examination and critical thinking which may be used for individual, small group, or classroom review. UNIQUE! Streamlined coverage of nutrition and fluid balance integrates these essential topics.

Compassionately care for the aging population with Gerontologic Nursing, 6th Edition, uniquely known for its comprehensive coverage of the most common medical-surgical problems associated with older adults. Organized by body system for easy retrieval of information, it delves into health promotion and both basic and complex gerontologic concepts and issues. This disorder-focused gerontologic nursing text features an enhanced focus on nursing management and care coordination across health care delivery settings. It emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care — and includes the latest guidelines for mammograms, colonoscopies, pneumonia, and shingles vaccinations. With the addition of new nursing theories, this edition offers a valuable framework for gerontologic care. Overview of age-related changes in structure and function included in all body system chapters. The most current standards and guidelines keep you in the know. Psychologic and sociocultural issues and aspects of older adult care integrated throughout the text. Critical thinking questions included at end of chapters. UNIQUE! Patient/Family Teaching boxes emphasize key aspects of practice and teaching for self-care. Health Promotion/Inness Prevention boxes provide tips to promote leading a healthy life. UNIQUE! Nutritional Consideration boxes demonstrate special nutritional needs and concerns facing the aging population. Evidence-Based Practice boxes pull the critical evidence-based information contained in the text into boxes for easy access and identification. Cultural Awareness boxes highlight differences in how key concepts are understood or practiced in various cultures. Home Care boxes highlight tips to promote practical, effective home care for the older adult. Key Points at end of chapters summarize the important concepts discussed in the chapter. EXPANDED! Increased focus on nursing management and care coordination across health care delivery settings. NEW! New nursing theories in chapter 2 provide a framework for gerontologic care. UPDATED! Up-to-date guidelines for mammograms, colonoscopies, pneumonia, and shingles vaccinations. UPDATED! Fall prevention updates help you better protect your patients. UPDATED! Updates on the challenges of caring for older adults with cognitive disorders ensure you are prepared. UPDATED! Updated chapters throughout reflect the current evidence to guide practice.

This convenient, money-saving package is a must-have for nursing students! It includes deWit's Fundamental Concepts and Skills for Nursing, 2nd edition text & Mosby's Nursing Video Skills: Student Online Version 3.0.

The American Psychiatric Publishing Textbook of Geriatric Psychiatry is an indispensable resource for psychiatric clinicians and trainees charged with assessing, diagnosing, and treating mental disorders in our nation's burgeoning population of older adults, as well as the nurses and other professionals who provide critically important care day to day. Building on the prodigious strengths of previous editions, this revision is the most current, comprehensive, and systematic textbook of geriatric psychiatry available today, and the only one that is DSM-5® concordant. The text's organization is user-friendly and practical, with sections addressing the basic science of geriatric psychiatry, the diagnostic interview in late life, psychiatric disorders in late life, treatment, and special topics. In addition, an array of useful features are included: The new DSM-5 structure and classifications have been integrated into every chapter, ensuring that readers understand how the changes impact diagnosis and patient care. Not only do the authors provide up-to-date information on psychiatric disorders, they also contextualize that information for the geriatric population, presenting the latest thinking on the phenomenology, diagnosis, and assessment of late-life mental disorders such as dementia and other neurocognitive disorders, mood disorders, anxiety disorders, and circadian rhythm disorders. All treatment sections have been thoroughly updated to incorporate the most recent knowledge and research findings on psychotherapeutic, psychopharmacological, and other somatic treatments. The book offers an impressive set of graphical and illustrative features to help the reader comprehend and retain the material, including outlines, bulleted key points, and tables, as well as lists of essential readings to deepen understanding of complex topics. Widely recognized as the standard in its field, The American Psychiatric Publishing Textbook of Geriatric Psychiatry serves a critical need for clinicians challenged to meet the mental health needs of an aging population.

This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

Preceded by Basic geriatric nursing / Gloria Hoffmann Wold. 5th ed. c2012.

With a strong focus on health and wellness, this gerontological nursing text offers you a holistic perspective to caring for older adults. Designed to facilitate the healthiest adaptation possible, this text identifies potential problems that may occur and the means to address complications, alleviate discomfort, and help older adults lead healthy lives. Disease processes are discussed in the context of healthy adaptation, nursing support, and nursing responsibilities to help you gain an understanding of your clients' experience. Focus on health and wellness establishes a positive perspective to aging. Careful attention to age, cultural, and gender differences are integrated throughout to help you understand these important considerations when caring for older adults. Healthy aging strategies maximize the healthiest behaviors of clients with dementia and their caregivers. Consistent chapter organization includes learning objectives, research, and study questions/activities to make information easy to find and use. Incorporates assessment guidelines throughout provide useful tools for practice. End-of-chapter activities and discussion questions help you expand your knowledge and understanding of the content. Resource lists provide you with additional means to explore ways to care for the older adult. Incorporates the core competencies identified by the AACN and the Hartford Foundation Institute for Geriatric Nursing. Healthy People 2010 boxes assist you in integrating knowledge about healthy aging considerations. Evidence-Based Practice boxes summarize research findings that confirm effective practices or identify practices with unknown, ineffective, or harmful effects. Expanded sexuality-related content includes older adults living with AIDS and STDs. Genetics section reflects the emergence of the role of genetics in gerontological assessment.
