by Max Hastings. Rereading Bomber Command makes it easy to understand why the book was so enthusiastically received by buffs when first published in 1979. Max Hastings writes with a sure hand, and the depth of his research was groundbreaking at the time. He was among the first to declare that the British (and later American) bombing campaigns might have achieved their objective of winning World War II in 1942 and 1943—if they had had the equipment.

BOMBER COMMAND | Kirkus Reviews
