Fetal Pig Dissection Day 6: Nervous System. Day 6: Day 6 was an investigation of the fetal brain. In class we covered a few topics about the nervous system such as the neuron (nerve cell), the way the impulse travels through a neuron, and the components of the synapse. The nerve cell in the body is called a neuron and it is what

Day 5 we finished skinning the pig and cut through the muscle to the thoracic cavity. We then cracked the ribs and exposed the heart. I also cut the pericardial sac that was around the fetal pig's heart. The pink stuff in the fetal pig's cavity is latex that came out when the sac around the heart was cut open.

Fetal pig dissection Flashcards | Quizlet

Fetal Pig Dissection Honors Biology Introduction In this lab, you will study the external and internal anatomy of a fetal pig, relate its structures to those of other mammals, and determine differences between a fetal pig and an adult pig. Dissection will help you to get a 3-dimensional picture of how all the systems fit together.
