ISO 14971 is a risk management guideline that is meant to reduce patient risk as much as possible. "ISO 14971 is also concerned with the risk to other people, including operators, other equipment and the environment." The most current version of this standard is the ISO 14971:12, which took effect on August 30th 2012, meaning it "superseded former harmonized standard EN ISO 14971:2009" . Most importantly, it only applies to you if you are manufacturing medical devices that will be ...
