Review: Hollow Earth by John and Carole E. Barrowman Lots of twins have a special connection - being able to finish each other's sentences; sensing what the other is thinking; perhaps even knowing when the other is in trouble or in pain - but for 12-year-old twins, Matt and Emily Calder, the connection is beyond special.

In this fresh and innovative middle grade fantasy, imagination matters most in a world where art can keep monsters trapped—or set them free. Lots of twins have a special connection, but twelve-year-old Matt and Emily Calder can do way more than finish each other’s sentences. Together, they are able to bring art to life and enter paintings at will. Their extraordinary abilities are highly sought after, particularly by a secret group who want to access the terrors called Hollow Earth. All the demons, devils, and evil creatures ever imagined are trapped for eternity in the world of Hollow Earth—trapped unless special powers release them. The twins flee from London to a remote island off the west coast of Scotland in hopes of escaping their pursuers and gaining the protection of their grandfather, who has powers of his own. But the villains will stop at nothing to find Hollow Earth and harness the powers within. With so much at stake, nowhere is safe—and survival might be a fantasy.

Matt and Emily Calder’s travels through time come to a thrilling conclusion in the third book of the Hollow Earth trilogy as the siblings struggle to close Hollow Earth—and keep the monsters inside. Twins Matt and Emily Calder may be divided by time, but they are united in their mission to close Hollow Earth before the monsters inside can destroy the world. The key to success lies with their Animare talents: they can draw things into life and travel in time through art. But there are monsters outside Hollow Earth as well. Monsters intent on taking control of the beasts for themselves. And the worst monster of all is their own father...

In this thrilling sequel to Hollow Earth, Matt and Emily must stop someone from unleashing an army of mankind’s worst nightmares. In the Middle Ages, an old monk used his powers and a bone quill to ink a magical manuscript, The Book of Beasts. Over the centuries the Book, and the quill, were lost. Twins Matt and Emily Calder are Animare—just like their ancestor, the monk.

The things they draw can be brought to life, sometimes with disastrous consequences. Now Matt and Em are being watched—hunted—because only they can use The Book of Beasts and the bone quill to release the terrible demons and monsters their ancestor illustrated. And someone is tracking down the lost Book of Beasts, page by page, and reassembling it. Matt and Emily have no choice: They must get to the bone quill first...before somebody gets to them.

Zwillinge haben einespezielle Verbindung ... Sie können die Sätze des jeweils anderen beenden, spüren, was der andere denkt, merken vielleicht sogar, ob der andere in Gefahr ist oder Schmerzen erleidet. Aber zwischen den 12-jährigen Zwillingen Matt und Emily Calder ist die Verbindung mehr als nur speziell. Zusammen haben sie übernatürliche Fähigkeiten! Sie sind in der Lage, Kunst zum Leben zu erwecken oder Bilder mit der Kraft ihres Willens zu betreten. Ihre Fähigkeiten bleiben jedoch nicht unbemerkt und ihre Feinde versuchen, diese für sich auszu-nutzen, um Zugang zur Hohlen Erde zu erlangen, einem Ort, in dem alle Dämonen, Kreaturen und Monster, die jemals erdacht wurden, gefangen sind.

All three books of John & Carole E. Barrowman's HOLLOW EARTH trilogy. Book 1: HOLLOW EARTH. Book 2: THE BONE QUILL. Book 3: THE BOOK OF BEASTS. Long ago, the Order of Era Mina bound all the beasts of myth and legend into the pages of a single tome. They called the prison they had created the Hollow Earth – a nightmare world built to keep our world safe. Over centuries, their Order grew strong: the men and women with the power to bind and animate the magic of this world learned to live in secret among us, watched over by their constant companions, the Guardians. Each Animarus was tasked with the protection of this world. Each Guardian was tasked with the protection of an Animarus. And in time the history of the Order was forgotten, their relics lost, and the Hollow Earth became nothing but a story. Now, twelve-year-old twins Matt and Emily Calder are about to discover this world for themselves...

Imagination is a powerful thing. There are three things in this world that seventeen-year-old Rémy would guard with his life: his gold pendant, his blues harmonica and his mother's journal. This is all he has left of his murdered family. And he believes these objects will lead him to their killers. Rémy can't hunt them down alone. He needs Matt and Em Calder, twins who can bring art to life and travel through paintings. For, like them, Rémy has supernatural powers. He is a Conjuror, descendant of an ancient bloodline that can change reality with music.

Lots of twins have a special connection - being able to finish each other's sentences; sensing what the other is thinking; perhaps even knowing when the other is in trouble or in pain - but for 12-year-old twins, Matt and Emily Calder, the connection is beyond special. Together, the twins have extraordinary powers - they are able to bring art to life, or enter paintings at will. Their abilities are sought by villains trying to access the terrors of Hollow Earth - a place where all the demons, devils and creatures ever imagined lie trapped for eternity. The twins flee with their mother to the security of an island, off the west coast of Scotland, where their grandfather has certain protective powers of his own. But too much is at stake, and the twins aren't safe there either. The villains will stop at nothing to find Hollow Earth and harness the powers within - even if the twins must die.

A collection of essays that celebrate the Doctor Who phenomenon from writers, including Tanya Huff, Paul Magrs, and Brit Mandelo.

Looking back at a tragic event that occurred during his thirteenth year, Frank Drum explores how a complicated web of secrets, adultery, and betrayal shattered his Methodist family and their small 1961 Minnesota community.

It starts with a series of unexplained events. Earth tremors across the globe. Women being driven insane by their scrambled senses. Governments and scientists are bewildered and silent. The world needs Torchwood, but there's not much of Torchwood left. Captain Jack Harkness has tracked the problem to its source: a village in Peru, where he's uncovered evidence of alien involvement. In Cardiff, Gwen Cooper has discovered something alien and somehow connected to Jack. If the world is to be restored, she has to warn him - but she's quickly becoming a victim of the madness, too...
