Hunter Pro-C Manuals | ManualsLib

Hunter is proud to introduce two new kits designed to expand the capabilities of the Pro-C controller. The kits allow users to easily expand station counts and bring the power of two-wire technology to residential or small commercial projects. The PCM-1600-KIT enables control for up to 23 conventional stations. If users need to expand the system, they don't have to replace the

Hunter Introduces Two New Kits to Expand Pro-C® Controller ...

The Pro-C utilizes automatic module recognition firmware to identify when PCM modules are installed or removed from the controller. This feature will recognize the correct number of stations without having to reset or cycle power to the controller. Installing PCM Modules The Pro-C controller is designed with a simple-to-use “ Power

Residential and Light Commercial Irrigation Controller

Since 2001, the Pro-C has been the contractor's choice in residential irrigation control. The Pro-C has proven to be the most reliable and robust controller in the industry, with the flexibility to expand on demand due to its modular design. When expansion isn't necessary, the fixed 6 and 12 station models offer affordability in a high-end residential controller.
