You wouldn't think a book about a hitwoman could be a comfort read, but I am finding Made to be Broken, book #2 in the Nadia Stafford series, to be deeply satisfying and comforting for two reasons: 1. The absolute expertise of the heroine Nadia. 2. The deep sense of understanding between Nadia and Jack, her hit man mentor

Nadia Stafford isn't your typical nature lodge owner. An ex-cop with a legal code all her own, she's known only as "Dee" to her current employers: a New York crime family who pays her handsomely to bump off traitors. But when Nadia discovers that a troubled teenage employee and her baby have vanished in the Canadian woods, the memory of a past loss comes back with a vengeance, and her old instincts go into overdrive. With her enigmatic mentor, Jack, covering her back, Nadia unearths sinister clues that point to an increasingly darker and deadlier mystery. Now, with her obsession over the case deepening, the only way Nadia can right the wrongs of the present is to face her own painful ghosts - and either bury them for good, or die trying. Because in her book, everyone deserves a chance. And everyone deserves justice.

Popular fantasy author Kelley Armstrong (Women of the Otherworld series) makes her first foray into crime fiction, with the debut of a series of non-paranormal novels featuring female assassin Nadia Stafford. Nadia Stafford is one of the world's few female contract killers. A former cop, drummed out of the force because of a scandal, she is an expert at disguise and cool under pressure. But when fellow hitman Jack arrives on the scene, Nadia's very private existence is seriously challenged. A series of victims are being murdered seemingly at random all over the country - different areas, different walks of life, different MOs. There is nothing to tie them together except a random page torn out of a single book: Helter Skelter. But does the Helter Skelter killer - as the hysterical media now dub him - have a real connection to Charles Manson? Or is there something even more sinister at work? Is this, in fact - as Jack believes - the carefully planned exit strategy of a fellow professional killer, determined to leave the life, but equally determined to clear up an old mistake? And, if so, which is the real victim? Now, the highly suspicious and secretive hitman community will have to break their cover - at least, to each other - and help take down this killer before the cops and the Feds discover his true connection to their own secret, exclusive society...

The long-awaited final installment of the #1 New York Times bestselling author's Nadia Stafford series Since Kelley Armstrong wrapped up book two of the Nadia Stafford series, fans have been eager to know what happens to the tough-as-nails contract killer. At last, Wild Justice brings Nadia back for the series' thrilling conclusion-an action-packed tale that will dazzle fans of the series as well as those who are only familiar with Armstrong's bestselling paranormal books. In Wild Justice, Nadia is confronted with her most difficult task to date: going after the man who killed her cousin Amy twenty years prior. But when it turns out that someone else has gotten to him first, she is drawn into a complex situation where everything she knows and loves is thrown into the path of danger. Nadia is forced to take matters into her own hands, ultimately requiring her to confront her darkest secrets-and her deepest desires-in a way that she never thought possible. Armstrong's beloved Otherworld series is coming to the Syfy Channel in January 2014. Fans of that series are sure to enjoy the no holds barred action of Wild Justice.

"In a country teetering on the brink of civil war, two young people meet--sensual, fiercely independent Nadia and gentle, restrained Saeed. They embark on a furtive love affair, thrust into premature intimacy by the unrest roiling their city. When it explodes, turning familiar streets into a patchwork of checkpoints and bomb blasts, they begin to hear whispers about doors--doors that can whisk people far away, if perilously and for a price"--

In the tradition of The Glass Castle, a deeply felt memoir from Whiting Award-winner Nadia Owusu about the push and pull of belonging, the seismic emotional toll of family secrets, and the heart it takes to pull through. A Most-Anticipated Selection by \* The New York Times \* Entertainment Weekly \* O, The Oprah Magazine \* New York magazine \* Vogue \* Time \* Elle \* Minneapolis Star Tribune \* Electric Literature \* Goodreads \* The Millions \*Refinery29 \* HelloGiggles \* Young Nadia Owusu followed her father, a United Nations official, from Europe to Africa and back again. Just as she and her family settled into a new home, her father would tell them it was time to say their goodbyes. The instability wrought by Nadia's nomadic childhood was deepened by family secrets and fractures, both lived and inherited. Her Armenian American mother, who abandoned Nadia when she was two, would periodically reappear, only to vanish again. Her father, a Ghanaian, the great hero of her life, died when she was thirteen. After his passing, Nadia's stepmother weighed her down with a revelation that was either a bombshell secret or a lie, rife with shaming innuendo. With these and other ruptures, Nadia arrived in New York as a young woman feeling stateless, motherless, and uncertain about her future, yet eager to find her own identity. What followed, however, were periods of depression in which she struggled to hold herself and her siblings together. Aftershocks is the way she hauled herself from the wreckage of her life's perpetual quaking, the means by which she has finally come to understand that the only ground firm enough to count on is the one written into existence by her own hand. Heraldng a dazzling new writer, Aftershocks joins the likes of Don't Let's Go to the Dogs Tonight and William Styron's Darkness Visible, and does for race identity what Maggie Nelson does for gender identity in The Argonauts.

'The hugely talented Armstrong delves into a truly shadowy world where honor and morals are set to a different frequency. In Nadia Stafford, she's created an anti-heroine whose motivations are convoluted, yet utterly gripping. Take a walk on the dark side--where contract killers become both the bait and the hunter of a vicious serial killer.' - Romantic Times Book Reviews 'Original, dark, and gritty, with enough humanity to keep you caring about its anti-heroes and enough suspense to keep you turning the pages.' - Cody McFadyen, author of Shadow Man Ex-cop Nadia Stafford has a dark secret. After taking the law into her own hands she was kicked off the force... and entered the shadowy world of guns for hire. She has her own strict code - works only for one crime family, only kills the really bad guys. But when a hit goes tragically wrong, Nadia is devastated. Is it time to leave the business for good? Before she has time to decide, Nadia discovers that her own life is under threat. And worse - that terrifying events from her past may have triggered the attacks. With the help of Jack, her enigmatic mentor, Nadia is forced to upon a dark path - towards the truth and towards her final destiny. Afghan-American Nadia Hashimi's literary debut novel is a searing tale of powerlessness, fate, and the freedom to control one's own fate that combines the cultural flavor and emotional resonance of the works of Khaled Hosseini, Jhumpa Lahiri, and Lisa See. In Kabul, 2007, with a drug-addicted father and no brothers, Rahima and her sisters can only sporadically attend school, and can rarely leave the house. Their only hope lies in the ancient custom of bacha posh, which allows young Rahima to dress and be treated as a boy until she is of marriageable age. As a son, she can attend school, go to the market, and chaperone her older sisters. But Rahima is not the first in her family to adopt this unusual custom. A century earlier, her great-great grandmother, Shekiba, left orphaned by an epidemic, saved herself and built a new life the same way. Crisscrossing in time, The Pearl the Broke Its Shell interweaves the tales of these two women separated by a century who share similar destinies. But what will happen once Rahima is of marriageable age? Will Shekiba always live as a man? And if Rahima cannot adapt to life as a bride, how will she survive?

"As a bookseller, I loved Shelf Life for the chance to peer behind the curtain of Diwan, Nadia Wassef's Egyptian bookstore—the way that the personal is inextricable from the professional, the way that failure and success are often lovers, the relationship between neighborhoods and books and life. Nadia's story is for every business owner who has ever jumped without a net, and for every reader who has found solace in the aisles of a bookstore." —Emma Straub, author of All Adults Here "Shelf Life is such a unique memoir about career, life, love, friendship, motherhood, and the impossibility of succeeding at all of them at the same time. It is the story of Diwan, the first modern bookstore in Cairo, which was opened by three women, one of whom penned this book. As a bookstore owner I found this fascinating. As a reader I found it fascinating. Blunt, honest, funny." —Jenny Lawson, author of Broken (in the best possible way) The warm and winning story of opening a modern bookstore where there were none, Shelf Life: Chronicles of a Cairo Bookseller recounts Nadia Wassef's troubles and triumphs as a founder and manager of Cairo-based Diwan The streets of Cairo make strange music. The echoing calls to prayer; the raging insults hurled between drivers; the steady crescendo of horns honking; the shouts of street vendors; the television sets and radios blaring from every sidewalk. Nadia Wassef knows this song by heart. In 2002, with her sister, Hind, and their friend, Nihal, she founded Diwan, a fiercely independent bookstore. They were three young women with no business degrees, no formal training, and nothing to lose. At the time, nothing like Diwan existed in Egypt. Culture was languishing under government mismanagement, and books were considered a luxury, not a necessity. Ten years later, Diwan had become a rousing success, with ten locations, 150 employees, and a fervent fan base. Frank, fresh, and very funny, Nadia Wassef's memoir tells the story of this journey. Its eclectic cast of characters features Diwan's impassioned regulars, like the demanding Dr. Medhat; Samir, the driver with CEO aspirations; meditative and mythical Nihal; silent but deadly Hind; dictatorial and exacting Nadia, a self-proclaimed bitch to work with—and the many people, mostly men, who said Diwan would never work. Shelf Life is a portrait of a country hurtling toward revolution, a feminist rallying cry, and an unapologetic crash course in running a business under the law of entropy. Above all, it is a celebration of the power of words to bring us home.

"Afifi's staggering and un-put-downable debut offers a fresh and feminist-forward take on cloning [...] This riveting debut is a must-have for any sci-fi fan."— Publishers Weekly starred review Amira Valdez is a brilliant neuroscientist trying to put her past on a religious compound behind her. But when she's assigned to a controversial cloning project, her dreams of working in space are placed in jeopardy. Using her talents as a reader of memories, Amira uncovers a conspiracy to stop the creation of the first human clone - at all costs. As she unravels the mystery, Amira navigates a dangerous world populated by anti-cloning militants, scientists with hidden agendas, and a mysterious New Age movement. In the process, Amira uncovers an even darker secret, one that forces her to confront her own past. FLAME TREE PRESS is the new fiction imprint of Flame Tree Publishing. Launched in 2018 the list brings together brilliant new authors and the more established; the award winners, and exciting, original voices.
