A sequel to Green and Endurance returns Green to her service under the Lily Goddess in the city of Kalimpara, where she is hounded by gods that would render her a conduit for the supernatural while she attempts to rescue two Bittern Court hostages.

Acclaimed author Jay Lake has created a remarkable character in Green, and evokes a remarkable world in this novel. Green and her struggle to survive and find her own past will live in the reader's mind for a long time after closing the book. She was born in poverty, in a dusty village under the equatorial sun. She does not remember her mother, she does not remember her own name—her earliest clear memory is of the day her father sold her to the tall pale man. In the Court of the Pomegranate Tree, where she was taught the ways of a courtesan...and the skills of an assassin...she was named Emerald, the precious jewel of the Undying Duke's collection of beauties. She calls herself Green. The world she inhabits is one of political power and magic, where Gods meddle in the affairs of mortals. At the center of it is the immortal Duke's city of Copper Downs, which controls all the trade on the Storm Sea. Green has made many enemies, and some secret friends, and she has become a very dangerous woman indeed. An original full-length novel set in the Halo universe and based on the New York Times bestselling video game series! It has been six years since the end of the Covenant War...and yet on the planet Carrow, a world on the edge of the Joint Occupation Zone, a decisive new battle suddenly erupts. Human colonists and the alien Sangheili have already been living a tension-filled co-existence in this place, with Unified Earth Government envoy Melody Asikiwe attempting to broker a lasting peace between their two species. But as civil war now engulfs the Sangheili settlers, Melody must act on an additional covert assignment courtesy of the Office of Naval Intelligence: find a way to free the SPARTAN-III's known as Gray Team, held in stasis since the end of the war by a cunning Elite fleetmaster consumed with vengeance. And none can anticipate the ongoing violence leading to the discovery of an even greater, unstoppable threat—one hidden for eons below the surface of the planet...

Jane Hawkins lives on a floating space port where she tries to help her mothers run a failing inn. Every day she watches starships land from far-off places, bound for exotic adventures. But a new occupant under their roof is about to change everything. His name is Villem Osteonides. More machine than man, he's crewed aboard ships that sail through the universe faster than light. And he has a secret that will change Jane's life forever.

In a future ravaged by global warming, an innovative corporation creates a technology that can both cool the planet and provide a massive super-weapon, prompting airship pilot Anika Duncan to be swept up in an international plot.

Years before they served together on board the U.S.S. Enterprise™, Commander William Riker and ship's counselor Deanna Troi had a tempestuous love affair on her home planet of Betazed. Now, their passions have cooled and they serve together as friends. Yet the memories of that time linger and Riker and Troi remain Imzadi— a powerful Betazoid term that describes the enduring bond they still share. During delicate negotiations with an aggressive race called the Sindareen Deanna Troi mysteriously falls ill and dies. But her death is only the beginning of the adventure for Commander Riker, an adventure that will take him across time, pit him against one of his closest friends, and force him to choose between Starfleet's strictest rule and the one he calls Imzadi.

A stunning literary SF novel from the multiple award-winning Christopher Priest. A tale of murder, artistic rivalry and literary trickery: a Chinese puzzle of a novel where nothing is quite what it seems; a narrator whose agenda is artful and subtle; a narrative that pulls you in and plays an elegant game with you. The Dream Archipelago is a vast network of islands. The names of the islands are different depending on who you talk to, their very locations seem to twist and shift. Some islands have been sculpted into vast musical instruments, others are home to lethal creatures, others the playground for high society. Hot winds blow across the archipelago and a war fought between two distant continents is played out across its waters. THE ISLANDERS serves both as an untrustworthy but enticing guide to the islands, an intriguing, multi-layered tale of a murder and the suspect legacy of its appealing but definitely untrustworthy narrator.
