Taught by lauded Harvard professor Michael Sandel, Justice explores classical and contemporary theories of justice, including discussion of present-day applications.

A Harvard professor assesses the role of justice in today's society as well as the moral responsibilities faced by everyday citizens, weighing a range of issues from euthanasia and abortion to affirmative action and tax structuring. Reprint. A best-selling book.

What are our obligations to others as people in a free society? Should government tax the rich to help the poor? Is the free market fair? Is it sometimes wrong to tell the truth? Is killing sometimes morally required? Is it possible, or desirable, to legislate morality? Do individual rights and the common good conflict? Michael J. Sandel's "Justice" course is one of the most popular and influential at Harvard. Up to a thousand students pack the campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day, and this fall, public television will air a series based on the course. Justice offers readers the same exhilarating journey that captivates Harvard students. This book is a searching, lyrical exploration of the meaning of justice, one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways. Affirmative action, same-sex marriage, physician-assisted suicide, abortion, national service, patriotism and dissent, the moral limits of markets—Sandel dramatizes the challenge of thinking through these con?icts, and shows how a surer grasp of philosophy can help us make sense of politics, morality, and our own convictions as well. Justice is lively, thought-provoking, and wise—an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life.

Michael Sandel's Justice: What's the Right Thing to Do? invites readers of all ages and political persuasions on a journey of moral reflection, and shows how reasoned debate can illuminate our lives. Is it always wrong to lie? Should there be limits to personal freedom? Can killing sometimes be justified? Is the free market fair? What is the right thing to do? Questions like these are at the heart of our lives. In this acclaimed book Michael Sandel - BBC Reith Lecturer and the Harvard professor whose 'Justice' course has become world famous - gives us a lively and accessible introduction to the intersection of politics and philosophy. He helps us think our way through such hotly contested issues as equal rights, democracy, euthanasia, abortion and same-sex marriage, as well as the ethical dilemmas we face every

day. 'One of the most popular teachers in the world' Observer 'Enormously refreshing ... Michael Sandel transforms moral philosophy by putting it at the heart of civic debate' New Statesman 'One of the world's most interesting political philosophers' Guardian 'Spellbinding' The Nation Michael Sandel is the Anne T. and Robert M. Bass Professor of Government at the University of Harvard. Sandel's legendary 'Justice' course is one of the most popular and influential at Harvard. Sandel is the author of many books and has previously written for the Atlantic Monthly, the New Republic and the New York Times. He was the 2009 BBC Reith Lecturer.

Is killing sometimes morally required? Is the free market fair? It is sometimes wrong to tell the truth? What is justice, and what does it mean? These and other questions are at the heart of Michael Sandel's Justice. Considering the role of justice in our society and our lives, he reveals how an understanding of philosophy can help to make sense of politics, religion, morality - and our own convictions. Breaking down hotly contested issues, from abortion, euthanasia and same-sex marriage, to patriotism, dissent and affirmative action, Sandel shows how the biggest questions in our civiv life can be broken down and illuminated through reasoned debate. Justice promises to take readers - of all ages and political persuasions - on an exhilarating journey to confront controversies in a fresh and enlightening way.

Quel travail mérite salaire ? Un gouvernement devrait-il être moralement neutre ? Qu'est-ce que la liberté ? Sommes-nous propriétaires de nous-mêmes ? Le patriotisme est-il une vertu ?... Michael J. Sandel excelle dans l'art d'aborder, sous un angle éthique, les questions politiques les plus complexes en les ramenant à des enjeux dont chacun peut aisément se saisir.

Justice brings together in one indispensable volume essential readings on justice and moral reasoning. With readings from major thinkers from the classical era up to the present, the collection provides a thematic overview of the concept of justice. Moreover, Sandel's organization of the readings and his own commentaries allow readers to engage with a variety of pressing contemporary issues. Looking at a host of ethical dilemmas, including affirmative action, conscription, income distribution, and gay rights, from a variety of angles—morally, legally, politically—the collection engages with the core concerns of political philosophy: individual rights and the claims of community, equality and inequality, morality and law, and ultimately, justice. With concise section introductions that put the readings in context, this anthology is an invaluable tool for students, teachers, and anyone who wishes to engage in the great moral debates that have animated politics from classical times to our own.

A Times Literary Supplement's Book of the Year 2020 A New Statesman's Best Book of 2020 A Bloomberg's Best Book of 2020 A Guardian Best Book About Ideas of 2020 The world-renowned philosopher and author of the bestselling Justice explores the central question of our time: What has become of the common good? These are dangerous times for democracy. We live in an age of winners and losers, where the odds are stacked in favor of the already fortunate. Stalled social mobility and entrenched inequality give the lie to the American credo that "you can make it if you try". The consequence is a brew of anger and frustration that has fueled populist protest and extreme polarization, and led to deep distrust of both government and our fellow citizens--leaving us morally unprepared to face the profound challenges of our time. World-renowned philosopher Michael J. Sandel argues that to overcome the crises that are upending our world, we must rethink the attitudes toward success and failure that have accompanied globalization and rising inequality. Sandel shows the hubris a meritocracy generates among the winners and the harsh judgement it imposes on those left behind, and traces the dire consequences across a wide swath of American life. He offers an alternative way of thinking about success--more attentive to the role of luck in human affairs, more conducive to an ethic of humility and solidarity, and more affirming of the dignity of work. The Tyranny of Merit points us toward a hopeful vision of a new politics of the common good.

Should we pay children to read books or to get good grades? Should we allow corporations to pay for the right to pollute the atmosphere? Is it ethical to pay people to test risky new drugs or to donate their organs? What about hiring mercenaries to fight our wars? Auctioning admission to elite universities? Selling citizenship to immigrants willing to pay? In What Money Can't Buy, Michael J. Sandel takes on one of the biggest ethical questions of our time: Is there something wrong with a world in which everything is for sale? If so, how can we prevent market values from reaching into spheres of life where they don't belong? What are the moral limits of markets? In recent decades, market values have crowded out nonmarket norms in almost every aspect of life—medicine, education, government, law, art, sports, even family life and personal relations. Without quite realizing it, Sandel argues, we have drifted from having a market economy to being a market society. Is this where we want to be? In his New York Times bestseller Justice, Sandel showed himself to be a master at illuminating, with clarity and verve, the hard moral questions we confront in our everyday lives. Now, in What Money Can't Buy, he provokes an essential discussion that we, in our market-driven age, need to have: What is the proper role of markets in a democratic society—and how can we protect the moral and civic goods that markets don't honor and that money can't buy?

In Michael Sandel the Chinese have found a guide through the ethical dilemmas created by their swift embrace of a market economy—one whose communitarian ideas resonate with China's own rich, ancient philosophical traditions. This volume explores the connections and tensions revealed in this unlikely episode of Chinese engagement with the West.
