An excerpt from the results section of a chemistry report Results When samples of hydrolysed and unhydrolysed BSA were analysed by ascending paper chromatography, the appearance and separation of the two samples were quite different.

Examples of results sections

The first method is to present the results and add a short discussion explaining them at the end, before leading into the discussion proper. This is very common where the research paper is straightforward, and provides continuity. The other way is to present a section and then discuss it, before presenting the next section with a short discussion.
