The phoenix of the title refers how Salafism has responded to the various conflicts of the last 15 years and re-imagined itself presently as a tech savvy Islamic State, eager to conduct the business of state while maintaining a diet of terror for its opponents.

The essential "on the ground" report on the fastest-growing new threat in the Middle East, from the winner of the 2014 Foreign Affairs Journalist of the Year Award Born of the Iraqi and Syrian civil wars, the Islamic State astonished the world in 2014 by creating a powerful new force in the Middle East. By combining religious fanaticism and military prowess, the new self-declared caliphate poses a threat to the political status quo of the whole region. In *The Rise of Islamic State*, Patrick Cockburn describes the conflicts behind a dramatic unraveling of US foreign policy. He shows how the West created the conditions for ISIS's explosive success by stoking the war in Syria. The West—the US and NATO in particular—underestimated the militants' potential until it was too late and failed to act against jihadi sponsors in Saudi Arabia, Turkey and Pakistan.

late 1990s as the jihadist dream of terrorist leader Abu Musab al Zarqawi, the Islamic State (known by a variety of names, including ISIS, ISIL, and al Qaeda in Iraq) has grown into a massive enterprise, redrawing national borders across the Middle East and subjecting an area larger than the United Kingdom to its own vicious brand of Sharia law. In *The Islamist Phoenix*, world-renowned terrorism expert Loretta Napoleoni takes us beyond the headlines, demonstrating that while Western media portrays the Islamic State as little more than a gang of thugs on a winning streak, the organization is proposing a new model for nation building. Waging a traditional war of conquest to carve out the 21st-century version of the original Caliphate, IS uses modern technology to recruit and fundraise while engaging the local population in the day-to-day running of the new state. Rising from the ashes of failing jihadist enterprises, the Islamic State has shown a deep understanding of Middle Eastern politics, fully exploiting proxy war and shell-state tactics. This is not another terrorist network but a formidable enemy in tune with the new modernity of the current world disorder. As Napoleoni writes, "Ignoring these facts is more than misleading and superficial, it is dangerous. "Know your enemy" remains the most important adage in the fight against terrorism."

This work is the third *Small Wars Journal* anthology focusing on radical Sunni Islamic terrorist and insurgent groups. It covers this professional journals writings for 2015 and complements the earlier *Global Radical Islamist Insurgency* anthologies that were produced as Vol. I: 20072011 (published in 2015) and Vol. II: 20122014 (published in 2016). This anthology, which offers roughly five hundred pages of additional analysis, follows the same general conceptual breakdown as the earlier works, and is divided into two major thematic sectionsone focusing on jihadi terrorism,

insurgency, and the Islamic State in context and the other focusing on US-allied policy and counter-jihadi and counter-Islamic State strategies.

Every day, a powerful and sophisticated underground business delivers thousands of refugees along the Mediterranean coasts of Europe. A new breed of criminals, risen from the post-9/11 political chaos and the fiasco of the Arab Spring, coupled with the destabilization of Syria and Iraq and the rise of ISIS, controls it. The ever-increasing political volatility has offered them new business opportunities, from trafficking millions of refugees to selling Western hostages to jihadist groups. The kidnapping industry in the Middle East is now worth hundreds of billions of dollars annually. Loretta Napoleoni's exclusive and meticulous research into the business of kidnap and ransom, and its link to terrorist activity, is based on first-hand accounts - from interviews with hostage negotiators to the experiences of former hostages themselves. *Merchants of Men* is a fascinating and eye-opening exploration of this most shocking of financial interdependencies.

From efficient instructions on how to kill civilians to horrifying videos of beheadings, no terrorist organization has more comprehensively weaponized social media than ISIS. Its strategic, multiplatformed campaign is so effective that it has ensured global news coverage and inspired hundreds of young people around the world to abandon their lives and their countries to join a foreign war. *The Media World of ISIS* explores the characteristics, mission, and tactics of the organization's use of media and propaganda. Contributors consider how ISIS's media strategies imitate activist tactics, legitimize its self-declared caliphate, and exploit narratives of suffering and imprisonment as propaganda to inspire followers. Using a variety of methods, contributors explore the appeal of ISIS to Westerners, the worldview made apparent in its doctrine, and suggestions for counteracting the organization's approaches. Its

highly developed, targeted, and effective media campaign has helped make ISIS one of the most recognized terrorism networks in the world. Gaining a comprehensive understanding of its strategies—what worked and why—will help combat the new realities of terrorism in the 21st century.

IS IT POSSIBLE THAT MUSLIMS ARE WRONG ABOUT JESUS AND VARIOUS TENETS OF ISLAM? Is the famous Muslim writer Reza Aslan mistaken in his portrayal of Jesus of Nazareth and apologetic for Islam? Professor James Beverley and Professor Craig Evans take an in-depth look at subjects at the core of the Muslim-Christian divide: the reliability of the New Testament Gospels and the Qur'an, and what we can really know about Jesus and the prophet Muhammad. Importantly, they also examine the implications of traditional Islamic faith on the status of women, jihad and terrorism.

"In most societies, courts are where the rubber of government meets the road of the people. If a state cannot settle disputes and enforce its decisions, to all intents and purposes it is no longer in charge. This is why successful rebels put courts and justice at the top of their agendas. Rebel Law explores this key weapon in the arsenal of insurgent groups, from the IRA's 'Republican Tribunals' of the 1920s to Islamic State's 'Caliphate of Law,' via the ALN in Algeria of the 50s and 60s and the Afghan Taliban of recent years. Frank Ledwidge delineates the battle in such ungoverned spaces between counterinsurgents seeking to retain the initiative and the insurgent courts undermining them. Contrasting colonial judicial strategy with the chaos of stabilisation operations in Iraq and Afghanistan, he offers compelling lessons for today's conflicts"--Book jacket.

The Islamic State (IS) arose from the ashes of al-Qaeda in Iraq (AQI) in 2011. Moving with blitzkrieg-like speed, this modern-day phoenix has spread death and destruction across the Middle East

and far beyond. Blazing a path across Syria and Iraq, its powerful army has seized large swaths of land and formed a new caliphate—an Islamic dominion. It seeks to rid the world of infidels—nonbelievers—and extend its Islamic domain around the globe. Using horrendous tactics—beheadings, crucifixions, rape, mass executions, and other heinous abuses—the Islamic State has redefined terrorism and what it means to be a terrorist. In a few short years, IS (also known as ISIS and ISIL) has become the newest, wealthiest, fiercest, and most dangerous terrorist organization on the planet. No one is beyond its reach. Islamic State leader Abu Bakr al-Baghdadi has said, “We will raise the flag of Allah in the White House”—a threat no American should dismiss lightly.

"A subject of enduring significance, examined here in comparative, multi-disciplinary and historically-minded manner. A fascinating and impressive book." - Professor Richard English, author of *Does Terrorism Work? A History* "A key strength of *Islam and Security in the West* is its stubborn insistence on a close examination of the actual lived experience and grassroots perspectives of 'frontline' communities on the Western front of the (so-called) Global War on Terror. As the 21st Century continues its troubled evolution, this important collection of essays looks set to remain both timely and provocative." - Dr Tim Wilson, Director, Handa Centre for the Study of Terrorism and Political Violence (CSTPV), University of St Andrews "The diversity of expertise of the contributors means that while it is enriching it is also bound to intellectually stimulate, excite and agitate the reader. This is a major contribution to the thinking and concerned reader. A must read." - Professor Akbar Ahmed, Ibn Khaldun Chair of Islamic Studies, School of International Service, American University, Washington DC What changes have the terrorist attacks on the United States in 2001 and the subsequent attacks in Europe brought to Western societies? In what ways have these events and their aftermath impacted on the relationships between Muslim communities and Western societies?

This book explores the remaking of the relationship between Islam and Islamism, on the one hand, and security and securitization, on the other hand, by arguing that 9/11 and its aftermath have led to the opening of a new phase in Western and European history and have remade the relationship between Islam and governmental and societal approaches to security. The authors utilize case studies across the Western world to understand this relationship. Stefano Bonino, PhD, is the author of *Muslims in Scotland: The Making of Community in a Post-9/11 World*. Roberta Ricucci is Professor of Sociology of Islam and Sociology of Migration at the University of Torino, Italy.
